DOGAN OGUZ
SENIOR FLUTTER DEVELOPER

ABOUT ME

I'm a mobile developer with 10+ years of experience, specializing in Flutter for the past 6 years. I've designed, built, and published over 60 high-quality iOS and Android apps.

I have expert-level skills in Flutter state management, mastering both BLoC and Provider to create clean, scalable, and high-performance applications.

My expertise covers the full app lifecycle from UI/UX implementation to App Store/Google Play releases, subscription systems (RevenueCat, Adapty), ASO, and user analytics.

I started with C# and Java, and now focus on delivering modern apps with outstanding user experiences. I'm also active in the tech community as a volunteer with GDG Izmir.

My goal is to build user-focused, scalable products that create real impact.

EDUCATION

Computer Programming
Suleyman Demirel University
September 2018 - January 2020
